

Community Benefit

Address Climate Change

Local Economic Development

Revenue for the Municipality

Local Investment Opportunities

Community Dividend Fund

Community Involvement

Community involvement is at the heart of what we do. All Scotian Wind projects seek to involve the local community in both the development process, and in sharing the benefits once operational. There is a lot to gain from working together.

Community Participation

We are looking for local community members who welcome the opportunity to volunteer for a position on the Community Liaison Committee (CLC). The purpose of the Community Liaison Committee (CLC) will be to ensure healthy, two-way -flow of communication between Scotian Wind and the community. Scotian Wind will provide the CLC with timely and accurate information about project plans and activities. CLC members will serve as a sounding board for the project, providing a representative cross-section of community views, concerns, and ideas on project plans and activities.

The CLC will also develop the governance structure to help administer the Community Dividend that will arise from this project. This annual donation, equivalent to 1% to gross revenue, roughly \$8,000 This money could be allocated to any number of different local programs or projects. The CLC will play an important role in administering the Dividend; to the community, for the community.
