Invest in the future of your community.

Scotian Wind Inc is based on an idea. That idea is believing in a safe and secure energy future for our province.

Nova Scotia has determined that it can't continue down the path of burning fossil fuels and relying on the volatility of foreign markets in coal. The provincial government designed their Community Feed-In-Tariff (ComFIT) Program to benefit energy consumers today and to secure a healthy environment for future generations.

Since the launch of the program in the Fall of 2011, Scotian Wind Inc has had six projects approved totalling 18.96 MW.

Get in on the ground floor.

Scotian Wind Inc is looking for investors who want to participate in the growth of renewable energy in their community. Scotian Wind is a CEDIF (Community Economic Development Investment Fund) that was established in 2012 to partner with communities and experienced wind developers to enable responsible wind energy development throughout Nova Scotia.

In this initial offering, we are encouraging investors in:

- Inverness
- Richmond
- Victoria County
- East Hants
- West Hants.

Local investors help to support projects in the community that have been approved as part of the ComFIT (Community Feed In Tariff) program. In order to launch these projects we are offering shares to potential investors in the surrounding communities.

The Scotian Wind offering is a chance to support your local turbine project while diversifying risk across their six ComFIT approved projects.

Community Economic Development Investment Funds

ABOUT CEDIFs

A Community Economic Development Investment Fund, or CEDIF, is a pool of capital raised through the sale of shares that is invested in new or existing local businesses. Since the program began in 1999-2000, more than 3,500 Nova Scotians have made almost 6,000 investments in CEDIFs.

COMMUNITY

CEDIFs help keep investment dollars working in your community. They support locally produced products and services, create jobs and stimulate economic growth.

INVESTORS

As an investor, there are several benefits to buying shares in a CEDIF:

- You receive a 35% non-refundable provincial income tax credit on your investment
- Your investment is RRSP eligible; this tax deferral is in addition to the Nova Scotia Tax Credit
- Shares must be held for a minimum of five years

A CEDIF is managed by a board of directors, which is elected by shareholders. The fund will provide shareholders with financial statements and hold an annual general meeting.

Experience you can trust

Scotian Wind Inc was established to be a COMFIT eligible Community Economic Development Corporation. They will be developing these projects in partnership with Scotian WindFields Inc as well as W.E.B. North America, a community-based developer founded in Austria. W.E.B. has substantial experience in developing, financing, and operating small scale community renewable energy projects throughout the world.

Community Meeting - Isle Madame

ComFIT Approved Projects

Scotian Wind has received certificates from the Department of Energy for the following projects:

Wedgeport (Little River)	1.99 MW
Bucklaw	1.99 MW
Martock Ridge	6 MW
Nine Mile River	5 MW
St. Rose	1.99 MW
Isle Madame	1.99 MW

You can learn more about the ComFIT program, its benefits, and criteria at: www.nsrenewables.com.

NOTE: This CEDIF Offering is made through an Offering Document, which can be obtained from an authorized sales agent or finder (Contact Dan Roscoe at 1-877-798-5085). This Offering constitutes an exempt Offering of these Securities only in Nova Scotia by authorized sales agents. Investors should read the Offering Document before making an investment decision.
